Zeki Baklan
Electronics & Communication Engineering

About Me

I graduated from Kocaeli University, Department of Electronics and Communication Engineering. My first project was a robot car control from iOS devices. After this project, I participated in various trainings, hackathons, bootcamps, and events. In the future, I want to improve myself by gaining experience in companies with a large user base and taking part in large-scale projects.

Experience and Skills

- MVVM, Clean Code, iOS Engineering, User Experience, Architecture, Figma.
- Microstrip & MIMO Antenna, Embedded Systems, Analog & Digital Communication.
- C,C++,CST, Swift,MatLAB, Multisim.

Employment
